

As 2024 comes to an end, it's time to reflect on all we have accomplished together, designing new vessels, working on ideas, providing engineering packages; summarized 'Co-Creation in Ship Design'. This year has been a journey filled with challenges, opportunities, changes and beautiful moments.

Besides the business as usual, ownership of the company changed. The process of ownership went smooth and all the necessary arrangements have been made.

Heading now towards the Christmas holiday, we would like to take the opportunity to express our appreciation to everyone who has supported and collaborated with us over the past year. Together, we have accomplished a lot and created some new beautiful designs.

With the holidays just around the corner, we wish you a warm, joyful, and loving Christmas surrounded by loved ones. May the new year 2025 be filled with health,

success and new opportunities. Groot Ship Design is confident we can keep working together with all our clients just as we were used to in recent years.

In this last newsletter of 2024 you find some recent highlights from our projects and clients. We like to thank you all for your trust and cooperation.

We wish you a Merry Christmas and a prosperous New Year!

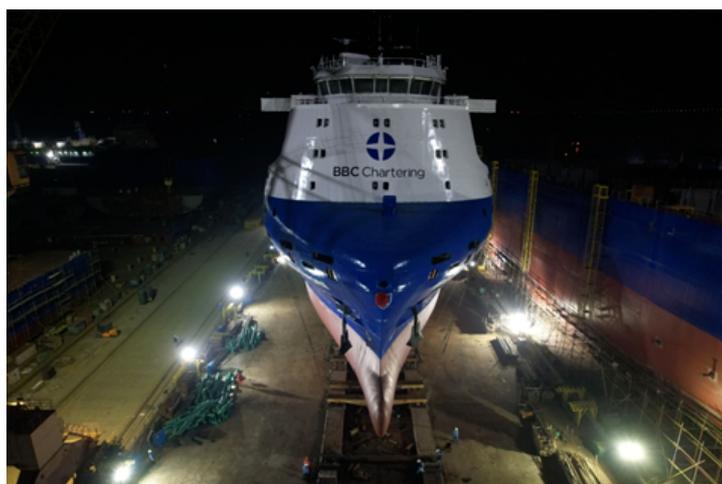

### Christening MV 'Ute Braren'

Joyful moments on the Kiel Canal with the christening of MV 'Ute Braren'. 'Ute Braren' is one of the GROOT 5200XL vessels build and brought into service this year. She shows the success of this series [read more >>](#)

### Successful launch 'BBC Singapore'

Sanfu shipyard in China recently launched the next vessel of the 'LakerMAX' type. The LakerMAX vessels are ordered by Briese and will be operated by BBC Chartering. [Read more >>](#)

## Successful christening and launch of MV 'Vertom Willemijn'

Congratulations to the Vertom Group and Thecla Bodewes Shipyards with the successful christening and launch of the MV 'Vertom Willemijn', she is the seventh in a series of 12 diesel-electric powered dry cargo ships. [Read more >>](#)
