

## Meet us at SMM Hamburg

SMM is started and Groot Ship Design is present again this year! When you visit the SMM, our team is looking forward to meet you and tell you more about our designs and our way of working, 'Co-creation in ship design'.

In this newsletter you will find updates of the projects with the involvement of Groot Ship Design. New is the recent order of the 'P MAX ECO TRADER'. Further a few examples of recent projects that illustrate 'Co-creation' with our clients.

We are very happy (and proud) to report that the current list of new-build vessels, on order or under construction, is still growing.

Besides working with clients for specific designs (e.g. Briese, Vertom, Carisbrooke, HSSchiffahrt, dship Carriers, Longship and Neptune), we also work with clients as Lubeca, JSP, Tom Wörden, Baas, L&B, Delft, Breb, who all ordered vessels of the standard design from the GROOT XL series. The SG12000, our newest addition as a standard design for a larger MPP/MPV, is under consideration at several owners and shipyards.

Ready to Co-create your new ship design? Please [call us](#), [send us an email](#) or visit us at SMM, hall B7, stand 420!

### 'PMAX ECO TRADER' Series

Dutch maritime companies, including Groot Ship Design, boost MPV shipbuilding in the Netherlands at SAS shipyard. [Read more >>](#)
